

# CO Research Trust

Adrian McConnell, CEO

NCOAA CO Summit, 31 July 2023

# Agenda

- Introduction
  - Background
  - Our Strategic Priorities
- Activities
  - Research
  - Events
    - Conference
    - Lectures
  - Collaboration
  - Grants
- CO Research Network

# Introduction

# Background

# Our Strategic Priorities

- To improve the diagnosis of CO poisoning.
- To understand the mechanics of CO poisoning.
- To understand co-morbidities in vulnerable groups.
- To measure the scale of CO poisoning in the UK.
- To understand the impact of building regulations and energy efficiency on CO safety.
- To improve detection where the risk of CO exposure cannot be eliminated.
- To understand the level of risk in the use of solid fuels.

# Our Strategic Priorities

- To improve the diagnosis of CO poisoning.
- To understand the mechanics of CO poisoning.
- To understand co-morbidities in vulnerable groups.
- To measure the scale of CO poisoning in the UK.
- To understand the impact of building regulations and energy efficiency on CO safety.
- To improve detection where the risk of CO exposure cannot be eliminated.
- To understand the level of risk in the use of solid fuels.

# Our Strategic Priorities

- To improve the diagnosis of CO poisoning.
- To understand the mechanics of CO poisoning.
- To understand co-morbidities in vulnerable groups.
- **To measure the scale of CO poisoning in the UK.**
- To understand the impact of building regulations and energy efficiency on CO safety.
- To improve detection where the risk of CO exposure cannot be eliminated.
- To understand the level of risk in the use of solid fuels.

# Our Strategic Priorities

- To improve the diagnosis of CO poisoning.
- To understand the mechanics of CO poisoning.
- To understand co-morbidities in vulnerable groups.
- To measure the scale of CO poisoning in the UK.
- To understand the impact of building regulations and energy efficiency on CO safety.
- To improve detection where the risk of CO exposure cannot be eliminated.
- To understand the level of risk in the use of solid fuels.

# Activities

# Research

# Events

CORT Conference 2023

CORT Lecture Series

# Collaboration

All-Party Parliamentary  
**carbonmonoxide**  
Group

**Sheffield  
Hallam  
University**

# Grants Call 2023-24

- Launch grants call – 14 June
- Grant call closes – 27 October
- Shortlisting meeting – 8 November (tbc)
- Presentation day – 22 November (tbc)
- Recommendations to the Board – 5 December

# CO Research Network

# Join the Network

Carbon Monoxide Research Network
